

A NEW Focus Group has been formed !

The Project Management Institute Great Lakes Chapter (PMIGLC) has established a new focus group called

Women in Project Management Focus Group (WiPM-FG)

PMI GLC is pleased to announce that local members of the Women in Project Management (WiPM) SIG have started a PMIGLC WiPM Focus group with the chapter, with a goal of collaboratively supporting chapter events and to promote advancement of women in project management.

The Goal ... To promote, facilitate and enable the participation and advancement of women in the project management profession

The Objectives ...

- Promoting professional relationships among our members, recognizing and showcasing their talents.
- Promoting clear understanding of cultural/gender variations
- Fostering and developing project management expertise by education, research, networking, information dissemination and sharing mutual experiences.
- Promoting visibility in technical publications, presentations/papers, and professional events.

The Benefits ...

- Improved engagement and interaction among members
- Increased membership
- Increased service to members
